NOTE this below and the following entries do NOT say Blue Row on the original scan entry, nor are there ditto marks, but there is no alternative address, so transcriber may have wrongly assumed these are also Blue Row - hence they are written as 'Village Blue Row' in the indexes. (Some later entries in the scans have road names or locations.) It seems unlikely all of these families lived in the four small cottages. However, the Franklins were apparently in No. 4 in earlier censuses, and Hawton/Hawkin also seem to have been in Blue Row cottages in earlier censuses.
